14th SINGAPORE PUBLIC HEALTH & OCCUPATIONAL MEDICINE CONFERENCE

The College of Public Health and Occupational Physicians (CPHOP) was formed on 1 February 2013 as a College of the Academy of Medicine, Singapore.

The College provides professional leadership and continuing education in public health, occupational medicine and aviation medicine. It also provides recommendations to the Academy of Medicine, Singapore on specialist qualification and training. Many Fellows of the College play important roles in the public healthcare sector and they also serve on national specialist training committees and academic programme committees of the three specialties.

MOTTO:

Populi Salus Summa, which is Latin for Advancing the Health of Populations.

MISSION:

To promote and protect the health and well-being of everyone in society by:

- Equipping the practitioner
- Enriching our community
- Exemplifying excellence
- Engaging public health challenges

VALUES:

- Passion for Prevention
- Integrity
- Leadership
- Excellence

Supported by:

NUHS
National University
Health System

ABOUT THE CONFERENCE

We live in a world characterized by shifting demographics, globalization and widespread adoption of technology. This year's conference, "**Preventive Medicine in a Rapidly Changing World**", explores how fast-moving economic, social, demographic and technological landscapes have influenced population health, and the opportunities and challenges they bring. Some of the topics participants can look forward to include:

- **How technology is accelerating the development of "Precision Public Health"** and its potential to improve health at the population and individual level
- **Re-emergence of previously controlled infectious diseases**, for example measles due to the spread of misinformation
- **New approaches in prevention and management of chronic diseases** that are bending the curve in our battle against lifestyle diseases
- **Global health, health policy and systems issues**, such as the sugar tax, use of e-cigarettes and new ways to finance preventive health
- **Occupational health and safety as a priority** as the lines between work, life and leisure blur, as our work spans increase, and as our workforce ages

Join fellow academics, practitioners, policymakers, clinicians and students for the 14th Public Health and Occupational Medicine conference to discuss how we can address these urgent challenges. Our pre-conference workshops on 14 October 2019 also provide hands-on training in health economics, genetics in public health as well as health systems research.

AUDIENCE

- Policy-makers and opinion leaders in Public Health and Preventive Medicine
- CEOs, COOs, Administrators and Managers of healthcare institutions
- Public Health specialists, Occupational Physicians and Aviation Physicians
- Program Directors and educators in Preventive Medicine and Aviation Medicine
- Non-physician Public Health and Occupational Health practitioners
- Anyone who is interested in improving the health of our population and workforce
